MOLINE BANKER IS INJURED IN AUTO ACCIDENT

Henry F. Vierich, Investment Broker, Injured When Street Car Hits His Machine.

IS TAKEN TO LOCAL HOSPITAL

Roadster is Carried 75 Feet On Fender of Car, But Remains Upright, Saving Lives.

Henry F. Vierich, investment broker and former banker, is lying at St. Anthony's hospital seriously injured as result of an auto accident early this morning, when a roadster, which he was driving, was run down by an Elm street car, speeding back to the car barn at Twenty-fourth street and Fifth avenue. His two companions, Edward Anderson and Frank E. Brown, both of Moline, escaped with a severe shaking up and cuts and bruises.

According to the story told by the street car crew, Vierich and his friends experienced a miraculous escape from death. The party had been to Davenport during the evening and was returning home to Moline at 12:15 this morning when the accident occurred. Vierich drove his car out on to Fifth avenue to turn east from Twenty-fourth street. No sooner did he reach the south rails when the Elm street car, also speeding east, crashed into the machine with terrific force, the impact being heard for several blocks.

Fender Wedges in Wheels.

Robert Stanley, motorman of the car, made frantic efforts to stop, but the auto was pushed in front of the car for a distance of over 75 feet before he was able to bring his car to a standstill. The fender of the car became wedged between the front and back wheels of the auto and this fact alone prevented the machine from overturning. Had the car turned turtle all three would probably have been killed. The auto was pushed along the track, skidding over the pavement sideways.

One of the occupants of the auto was thrown out, but Vierich, who was driving, received the brunt of the collision, as he was sitting on the side where the crash occurred.

Dr. Joseph De Silva was called and after temporary treatment Vierich was taken to St. Anthony's hospital. The banker sustained a badly fractured left collar bone, which was broken in three places. His right shoulder was badly bruised, the muscles and ligaments being torn. He also suffered bruises and contusions about the body. The body of the roadster was practically demolished, while the wheels and chassis were thrown out of line. The fender of the street car was smashed and the front end damaged.

Accident Unavoidable.

Just who was to blame for the collision is largely a matter of conjecture. Mr. Vierich did not violate any traffic laws when he swung out onto Fifth avenue, but he failed to notice the approaching street car. The car men usually run wide open on the last trip, as the avenue is practically deserted at this time of the night.

"GETS-IT"—Nothing Else—"Gets" Corns

First-Class Druggists Recommend It.

Look out for "corn remedies" which are made up to resemble "GETS-IT" in either name or package. There is only one "GETS-IT." Its name is G-E-T-S-I-T. Watch the spelling. Every druggist in the country sells "GETS-IT," because the millions of people demand it. Progressive, first-class druggists know there's nothing "just as good."

"Never in My Life Saw Anything 'Art So Quickly and Magically 'Gets-IT'." What's the use wasting time and money on the old methods of trying to remove corns? "GETS-IT" is the only way of removing them without pain. It's the only new principle corn remover sold. It's the biggest selling corn-cure ever known because there's no corn or callus among the millions of feet in the world that "GETS-IT" will not remove—there's no escape. "GETS-IT" is the common-sense, simple, sure way. It does away with greasy ointments, salves, pads, cotton rings, harnesses, knives, saws, razors, files, and the limping and the painful pigeon-toe walk of so many corn-plagued people. All you do is put 2 drops of "GETS-IT" on—the corn is doomed to go. There's no pain, no trouble, no changing shoes because of corns. Be sure it's "GETS-IT." You'll waste money on substitutes.

"GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct to E. Lawrence & Co., Chicago.

the opera. The original date had been set as Dec. 7, but has since been changed to Dec. 6.
